

NiZn Renaissance Ready to Ship

Complete In-House Manufacturing in Taiwan and NY

Four Sizes for EV Applications

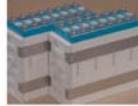

Xell-12

Model: Xell-12
Voltage: 13.2 V
Rated Capacity: 12AH
Peak Current: 100A

Xell-20

Model: Xell-20
Voltage: 13.2 V
Rated Capacity: 20AH
Peak Current: 200A

Xell-40

Model: Xell-40
Voltage: 13.2 V
Rated Capacity: 40AH
Peak Current: 200A

Xell-60

Model: Xell-60
Voltage: 13.2 V
Rated Capacity: 60AH
Peak Current: 300A

Flexible Manufacturing Allows for Custom Battery Solutions

We Offer Our Innovative Set of EV Components

- High Efficiency and High Density Motors
- Microprocessor motor controllers
- Integrated solutions for optimal performance

- Battery Chargers
- Battery Management System (BMS)
- DC-DC and DC-AC converter
- Formation Equipment
- Automatic battery cycling equipment
